SUMMARY

Web developer with **3+ years** of experience building and maintaining **WordPress** websites. **1+ years** of experience designing and building frontend applications using **HTML**, **CSS**, **JavaScript**, **jQuery**, and **React/Redux**. **1+ years** of experience developing and building backend applications using **Node**, **Express**, **MongoDB** or **PostgreSQL**, and **Handlebars**. Experience using **GitHub** as a version control tool.

EXPERIENCE

Creative Lead

Hopkins Brothers LP&D, 2016 - PRESENT

Develop and maintain 3 WordPress websites and multiple campaign sites. Customize HTML, CSS, and JavaScript for project needs. Created full stack CRUD application to capture user comments and persist data to a backend. Collaborate with an interdisciplinary team to design and produce in-house creative efforts.

WordPress, HTML, CSS, JavaScript, MongoDB, Express, Handlebars, Node

Projects: The Preserve at Oakwood, Hopkins Brothers LP&D, Rosedale MXD

Operations Manager

ComputerCORE Workforce Development Nonprofit, 2014 - 2017

Member of the planning team for WordPress website. Managed site updates and added features with HTML, CSS, and JavaScript. Maintained relational database and used SQL to extract data. Refurbished computer hardware by wiping data with DBAN, cloning the system with a ghost image, and installing Windows OS.

WordPress, HTML, CSS, JavaScript, SQL, Windows OS (7, 8, 10)

Projects: ComputerCORE, SQL database management

EDUCATION

Web Development Immersive

General Assembly, 2018

The curriculum covered industry best practices in OOP, server-side MVC architecture, frontend frameworks with REST API, and methods for learning new languages and technologies rapidly.

HTML, CSS, JavaScript, MongoDB, Express, Handlebars, Node, React/Redux, GitHub

Projects: Art Education (GitHub), Banking Q&A (GitHub), Flashdance Flashcards (GitHub)

BA International Studies

Virginia Commonwealth University, 2013

SKILLS

JavaScript, React, Redux, Node, Express, MogoDB, Handlebars, jQuery, HTML, CSS, Ruby/Rails, SQL, PostgreSQL, Bash, Github, AWS (Solutions Architect, Developer), WordPress, Adobe Illustrator

A LITTLE ABOUT ME

I love art and design and generally have a creative side project, it's currently screen-printing.

I'm an avid golfer with an apartment swing that drives my wife insane.

I enjoy a good puzzle, which is probably why I am attracted to web development; it gives me the opportunity to solve brain teasers and prove that inanimate objects cannot get the best of me.
